Education

- 2025 – 2029 📖 **Ph.D. Applied Mathematics**, ICTEAM, UCLouvain. **Supervisor:** Raphaël Jungers.
Thesis: Towards Scalable Abstraction-based Control for Safety Critical Stochastic Systems.
Control theory, formal methods, probability theory, optimization.
- 2023 – 2025 📖 **M.Sc. Engineering in Applied Mathematics**, UCLouvain.
Magna Cum Laude.
Thesis: On an agile temporal discretization for abstraction-based control, grade: 17/20.
Exchange semester at *McGill university*, Canada (GPA: 4.0/4.0).
- 2020 – 2023 📖 **B.Sc. Engineering**, UCLouvain
Summa Cum Laude.
Options in applied mathematics and electrical engineering.
- 2014 – 2020 📖 **High School, Mater Dei Instituut**, option in Latin & Mathematics.
Dutch-speaking school.

Experience

- 2025 – Now 📖 **Teaching Assistant**. Ecole Polytechnique de Louvain, UCLouvain.
Teaching assistant for the courses "LINMA2222" and "LINMA2345".
Includes monitoring students during exercise sessions, grading, and administrative duties.
- 2022 – 2025 📖 **Student Tutor**. Ecole Polytechnique de Louvain, UCLouvain.
Monitoring around 25 engineering students during weekly exercise sessions.
- 2020 – 2025 📖 **Scout Leader**, Unité Saint-Joseph.
Working in team with 6-7 other leaders, 1 year as troop leader. Last year, organized a 2-week camp in Senegal for 10-17 year olds.
Leadership, organisational skills, communication, creativity, adaptation.

Publications

- 1 📖 A. Janssens, A. Banse, J. Calbert, and R. M. Jungers, "Agile temporal discretization for symbolic optimal control", in *Proceedings of the 64th IEEE Conference on Decision and Control (CDC2025)*, 2025.

Skills

- Languages 📖 **French:** mother tongue. **English** and **Dutch:** strong reading, writing and speaking.
- Coding 📖 Python, Julia, C, Java, MATLAB, Simulink, $\text{\LaTeX}$, ...

Certifications

- 2023 📖 **Fresque du Climat Facilitator**. Issued by *La Fresque du Climat*.
Followed and led workshops on climate change awareness based on the game.
